

MEMORANDUM**State of Alaska**

TO:  Roger Wadman

DATE : Sept. 14, 1961

FROM: Alex McRea

SUBJECT: Requested small lake check and
possible planting by Coast Guard

Charles Hayes, Chief of Intelligence Enforcement Section, C. G., called this morning and requested we check for stocking a small lake on Biorka Island (just south of Sitka). They have a Loran Station with 16 people on the Island. There is also a small FAA station.

The lake is est. 1,000 ft. diameter.
They will provide data on depth, inlet, outlet, etc.
They believe the lake is virgin.

I'm sure we can arrange transportation with them to check it. (Might make a nice trip).

Our policy is to assist them in matters such as this; the point being these men have little opportunity for the usual recreational pursuits.

Please get their request recorded in your file. I will refer any further dope they provide to you.
